

Valvo Fluid Power

Mfg.Of Hydraulic Power packs,
Hydraulic cylinders, Hydraulic Scissor Lift,
Hydraulic Press, Pneumatic panels

Hydraulic Power Packs

- Custom Built Hydraulic Power packs.
- Power packs for made as per standard design as well as TPM design.
- Better Manifold design with Low Pressure drop.
- Power packs for applications like SPM, Hydraulic Press, Sheet handling,
- Injection moulding, Dam gate applications, Die casting, etc.
- Power packs duly assembled with Gasket Mounted Valves for standard circuit, Slip in cartridge valves for Higher flows and Screw in Cartridge for Compact designs.

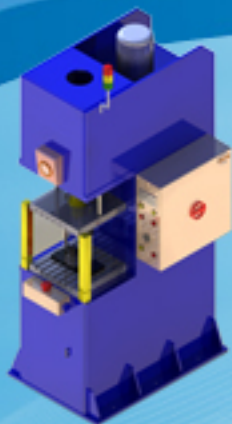

Hydraulic Cylinders

- Weldable Construction & Tie Rod type cylinders for Pressure up to 210 Bar.
- Bolted construction cylinder for Pressure up to 400 Bar
- Various Mounting like Flange Mounting, Clevis mounting, Foot Mounting & Trunion Mounting
- Material of construction of Tubes- ST 52.3 (Yield strength 520 N/Sq.mm.); Skived & Burnished-Imported
- Hard Chrome Rods made of CK 45 N with minimum plating thickness of 25-30 Microns
- Seals from Hallite/ Busak+Shamban/Merkel

Hydraulic Press

- We manufacture C-Frame, A-Frame, Closed Type and Pillar Type Presses
- We manufacture Hydraulic scissor as per customer design
- We manufacture Pneumatic panel for SPM, Press, etc.
- We specialise in designing of Special Manifolds, Cartridge Blocks, Press Blocks, etc.

Hydraulic Scissor Lifts

► We have earned a lot of appreciation in manufacturing a wide range of Hydraulic Scissor Lift, which is available with portable, movable on and has capacity of 300 to 5000Kg. Our hydraulic scissor lift is immensely useful for a lot many commercial and industrial purposes. Portable scissor lift is compact equipment serving the purpose in an admirable way. We design and manufacture lifting equipment and material handling solutions for all occasions.

Hydraulic Test Stand

- We are manufacturing and exporting wide range of valve test stands. These stands are easy to install and have trouble free operation.
- Vertical test stands are ideal for medium sized valves that are easy to handle and load with valve stem placed horizontally. This machine features a hydraulic operated swing top arm which swings open so that the valve can be placed on the bed from top using a crane

Pneumatic Control Panels

- We offer a high quality pneumatic control panel duly assembled with world's reputable make like FESTO, SMC, CAMOZZI etc....
- These pneumatic panels customised design and can withstand rugged environments like industrial, mobile, Onshore and offshore application
- Our organization offers an extensive range of Pneumatic Control Panels to our clients. With the help of our experts, we offer a superior range of Pneumatic Panels to our clients.

CamoZZi pneumatic valves

Fittings
